

To the Trade,

Since 1942 quality produce has been my family's passion. My grandfather, Harold S. Precythe, created a great company whose roots run deep with integrity, loyalty, hard-work, and a relentless commitment to provide the world's best sweet potatoes.

Stewart Precythe, my father, continued to lead with the same values laid before him for 40 years. A great visionary, he worked tirelessly to advance and innovate our company and industry.

Today, we proudly celebrate being a family-owned and operated company for over 75 years. An accomplishment which wouldn't be possible without our family of dedicated employees and growers, and most importantly our long term relationships with our customers.

I invite you to see first-hand how you can be a part of our heritage and tradition of providing superior quality and service since 1942. As a year round supplier of fresh sweet potatoes, we guarantee to work hard around the clock to ensure a level of customer service that is second to none.

Warm Regards,

Kelley
Precythe

President
